Joseph,

I've no objection at all to you hosting a Czeck language translation of the Webtrees Manual.

I've added a link from our sidebar and from our resources page to your site.

Perhaps you could do something similar back to mine.

Regards

Richard

Hello Underwoods,
on webtrees.net I have found a link to your Webtrees Manual.
I live in Czech Republic, I am a founder and administrator of our webtrees family tree <https://www.jprodina.cz> which was created 8 years ago.

As I like your Webtrees Manual very much for its content and structure I would like to translate it into Czech language so that our users can use it too. Therefore I humbly ask you for your permission to do so. I have already started as you can see on <http://manu.jprodina.cz>.
Thank you in advance for your reply.
Best regards, Josef
